

## IDAs - helping you to shine

In-depth assessments continue to evolve. There is increased focus on stress-testing, recovery planning and building, and resident safety. Your changing leadership team, corporate strategy and assurance approach must all demonstrate great governance.

We have supported over 80 associations to prepare for an IDA. Our clients confirm that we add real value, beyond passing the IDA 'exam'.

### We can help you to shine by:

- Reviewing key documents to help shape your narrative and pinpoint critical areas
- Rehearsing and coaching interviewees to confidently describe your ambitions, structures and risks
- Soft benchmarking against best practice in governance and risk management
- Identifying areas of strength and opportunities for improvement
