

Delivering impact: aligning homelessness and supported housing services with new guidance

A new year, a new set of guidance. We can ensure your homelessness, rough sleeping and supported housing strategies are in line with government expectations and backed up by local evidence and analysis.

We are a team of highly experienced consultants with extensive expertise in homelessness and supported housing, spanning service provision, commissioning and strategic development.

We can align your homelessness and rough sleeping strategies to reflect the new National Plan to End Homelessness and research on what works to deliver impact for your service users. We can also work with you on the implications of the Supported Housing (Regulatory Oversight) Act 2023; creating an evidence-based supported housing strategy and exploring the most effective licence regime for your area.

MHCLG now require all local authorities to have a supported housing strategy in place by March 2027, with new burdens funding issued in February 2026 to enable the needs assessment and strategic work.

We are ready to support you in meeting these new requirements.

How we can help

Homelessness and rough sleeping:

We can co-produce your Homelessness and Rough Sleeping Strategy and Delivery Plan, including data analysis and the development of Homelessness Reviews, in line with the new National Plan.

Supported housing licensing regime:

We can support your preparatory work for the new licensing regime, including the development of a clear and practical licensing implementation plan.

Supported housing needs assessment:

We can assess current and future demand for supported housing in your area, review existing supply, identify gaps, and support robust planning for future needs.

Market engagement:

We can work with you and local supported housing providers to ensure they understand the new regulatory requirements and are supported to meet them, helping to maintain market stability during this period of change.

Supported housing strategy:

We will work with you to co-create a clear, engaging, and deliverable Supported Housing Strategy that reflects local context, evidence, and the views of key stakeholders.

1/3

Trusted by local authorities

Over the last decade, we have worked with nearly a third of local authorities in England with the majority choosing to work with us multiple times.

Why Campbell Tickell?

Campbell Tickell is an expert leadership consultancy for organisations tackling the challenges that shape lives, communities and futures. We provide high quality services, problem-solving and advice, primarily to charitable, not-for-profit and public sector organisations. We are committed to delivering positive social benefit through our work.

Further information

For more information about our work in homeless and supported housing, or for an initial chat about how the new regulations might impact your work, please contact Liz Zacharias, Director – Care and Support, Campbell Tickell at: liz.zacharias@campbelltickell.com.

Liz has over 30 years' experience in supported housing both as a commissioner of homelessness, supported housing and related services, as well as working for providers of supported housing, in quality assurance, service delivery, business development and senior management roles.
